

Data Workflow

	Twitter API	EC2 (1 instance)	DynamoDB	AWS CloudWatch
Details	<25 users	t2.micro Linux (8GB RAM, 100% utilization)	Provisioned reads/writes (5-40,000)	Cloud monitoring service
Concerns	None	Scale to medium capacity.	DB access security	None
Estimated Cost (monthly)	\$0.00	\$10.23	\$2.91	\$2.70

Current Monthly Cost: \$12.93

- Monthly estimate based on a one stack setup.
- No scaling capabilities.
- No redundancy, recommend duplication of the database and servers.
- Security risk due to database and web app exposure.
